

ACO UPDATE

October 2018- Issue 26

Scripps Community Connect Offers Flexibility

The Scripps ACO has invested more than \$90 million dollars to ensure its affiliated, independent physician practices have the opportunity to implement one of the very best electronic health records specifically designed for community physician offices.

The Scripps Community Connect (SCC) team works with each practice to design the Epic Outpatient health record around your practice's workflows and needs, while leveraging best practice clinical protocols already built into Epic.

One of the first groups to implement SCC in Spring 2018 is Coastal Pulmonary Associates. Their physician champion, Dr. Scott Eisman, commended the SCC implementation team regarding the exceptional execution of hands-on training, at-the-elbow support and the flexibility Epic offers around workflows that are pertinent to the success of his practice. He states, "Scripps Community Connect has been the best decision for my practice. The benefits it offers to my staff and physician partners has far exceeded my expectations."

Scripps Community Connect Now Includes Billing Option

If you haven't already heard, the Scripps ACO is now offering the complete revenue cycle package with its Scripps Community Connect offering. The billing component called "Resolute Professional Billing" streamlines the entire patience experience within the physician practice. Whether you have internal billing or outsource your practice's billing efforts, the SCC billing offering applies to both. Please reach out to your respective Practice Outreach Manager to find out more details.

If your practice is located...

North of SR-52

Contact Stacy Pevney at pevney.stacy@scrippshealth.org or 858-537-7910.

South of SR-52

7910.

Contact Eydie Strouse at strouse.eydie@scrippshealth.org or 619-279-9868.
