

Scripps ACO Practice Outreach Managers

Scripps ACO is pleased to introduce our two newest team members, Stacy Pevney and Eydie Strouse. As Practice Outreach Managers, Stacy and Eydie will serve as the primary liaison with Scripps ACO integrated, independent physicians to support ACO growth and development.

Eydie Strouse started her career at Scripps in 2005 as a physician relations manager at Scripps Mercy Hospital. Eydie spent 9 ½ years establishing a robust physician relations program with our Scripps Mercy physicians where she focused on building and strengthening physician networking and referrals, physician marketing & communications, physician speaker bureaus, physician recruitment & retention, special events and new physician onboarding programs. Eydie has deep roots at Scripps Mercy Hospital as it was where she met her husband Dr. Timothy Strouse. The couple married in 2010 and in 2013 they welcomed their daughter, Ava Elizabeth, who was born at Scripps Mercy's San Diego campus. **Eydie will be the primary contact for practices South of State Route 52 and can be reached at: strouse.eydie@scrippshealth.org or 619-279-9868.**

Stacy Pevney has over 10 years of experience at Scripps Health. Stacy has assisted with multiple medical group acquisitions, supported communication processes between PCPs, ED physicians and hospitalists, networking and referral introductions, led monthly physician orientations, physician newsletters and physician onboarding. In addition she has supported numerous special projects such as Enhanced Recovery After Surgery, the opening of SPCI and AMP, surgical growth, web-based orders, End of Life care. She is happily married with two kids, Ryan (11) and Ella (10) and lives in North County San Diego. **Stacy will be the primary contact for practices North of State Route 52 and can be reached at: Pevney.stacy@scrippshealth.org or by calling 858-537-7910.**

We're very pleased to welcome Stacy and Eydie to the ACO team as they will be an invaluable resource for our ACO operations team and instrumental in maintaining strong communication channels with our independent physicians as well as assisting our physicians in navigating our journey as an Accountable Care Organization. Please contact Stacy or Eydie if you have any ACO questions.
